Reference: 2026 Sewer Rehabilitation Program for the City of Farmington Hills

Dear Resident or Property Owner:

DVM Utilities, in partnership with my office and the City of Farmington Hills, will be in your neighborhood over the next few months to begin video inspection, cleaning and lining sections of pipe in the public sanitary sewer.

Construction will begin after Labor Day and is expected to be concluded by March 1, 2027. I want to assure you that every effort will be made to minimize any inconveniences during this construction project. Use of sidewalks, as well as access to all driveways, will be maintained. Work on this project will be from 7 a.m. to 7 p.m., Monday through Saturday.

**Prior to any sewer service disruption, written notices will be hand-delivered at least 48 hours in advance advising you of any necessary steps required by the resident/homeowner.**

For additional information, or if you have construction-related questions, please contact WRC project engineer, Craig Tiell at 248-303-0930 or DVM Utilities project supervisor, Paul Torres at 586-291-5580.

In closing, I want to thank you in advance for your patience and cooperation during this project and ask that you bear with us during the construction period. Your cooperation and patience are greatly appreciated.

Sincerely,

Jim Nash
